

BEST FRIEND GLYPHS

Glyph is short for hieroglyphics; an ancient way of communication.

Today you are going to tell us who your best friend is by creating a “GLYPH” about them.

Here's how to get started.

Hair: the color will be dependent on their birthday

Blue: Jan, Feb, Mar, April

Red: May June, July, August

Green: Sept. Oct., Nov, Dec

Eyes: the actual color

The shape of the eyes should tell us something about them as well.

Nose: the shape of the house they live in

Ears: favorite foods

Mouth: Describes your best friend in one word or picture

Clothes: Gives us even more clues to who it is and why they are your BEST FRIEND

Arms/Legs: shows about their hobbies

Shoes: favorite color

Plan out on paper first.

You can use any of the supplies that are out to help create your
BEST FRIEND GLYPH
