

FACS for Life- CAREER VISUAL

Objective: to inform others about a career and the path to follow to obtain that career.

This is a professional looking visual that will be displayed around the school to inform other students of career options connected to what is offered in high school, volunteering, and beyond.

To begin

Choose a career that interests you at this time for your future career. The career choice can be one that you have researched in the past or a new career that you are interested in pursuing.

Sources to use but not limited

www.mynextmove.org

www.mcis.org

www.myfuture.com

What do you need to research and share about your career on your Professional Visual.
